

IN THE CLAIMS:

Please cancel claims 1-8 without prejudice to or disclaimer of the subject matter recited therein.

Please add new claims 9- 15 as follows:

LISTING OF CURRENT CLAIMS

1-8. (Canceled)

9. (New) A vibrating wave oral cleansing and hygiene device comprising:

a) a holder body having:

i) a working section connected to an interior of the holder body; and

ii) an insert section on an end of the holder body; and

b) a link rod having a floss bow section, the link rod being removably connected to the insert section of the holder body, the floss bow section having two floss expansion ends, each of the floss expansion ends having a retaining notch for securing a floss material between the two floss expansion ends.

10. (New) The vibrating wave oral cleansing and hygiene device according to Claim 9, wherein the floss bow section has a securing screw and a screw rod, configured to fasten ends of the floss material.

11. (New) The vibrating wave oral cleansing and hygiene device according to Claim 9, wherein the link rod has a Y shape.

12. (New) The vibrating wave oral cleansing and hygiene device according to Claim 9, wherein the insert section has an insert slot with two elastic clamp components; the link rod has a rod body on an end opposite the floss bow section; and the rod body is removably inserted into the insert slot and frictionally engaged by the two elastic clamp components.

13. (New) The vibrating wave oral cleansing and hygiene device according to Claim 9, wherein the insert section has an insert tenon; the link rod has an insert tube on an end opposite the floss bow section, and the insert tenon is removably inserted into the insert tube.
 14. (New) The vibrating wave oral cleansing and hygiene device according to Claim 9, further comprising a horseshoe shaped massage bar.
 15. (New) The vibrating wave oral cleansing and hygiene device according to Claim 9, wherein the working section includes a motor and an eccentric hammer for creating a vibration.
